Thanks, Dee. Unless someone has reservations about Elliott's handful of additions to our revised language (which look fine to me), I think we are okay with OGC on this issue. When we were talking about it on the call yesterday afternoon, one of the speakers on the other end recommended that we have someone else look at the language as well. I didn't catch the name, but it was someone in OAQPS or OP. Did any of you hear that?

Mike, Thanks for keeping on top of this. Our plan is to send a revised package to OP no later than COB Tuesday. Let us know if you need anything from our end. Take care, Dee
